A popular concert performer, particularly in the South West and in Wales, Jonathan will play a varied programme of classical, light, popular and novelty pieces. Previous programmes have included a medley of songs from 'Me and My Girl' including 'The Lambeth Walk', finishing with a barnstorming rendition of Eric Coates' 'The Dambuster's March'. What he will play on this occasion remains to be seen, but it's sure to be good, so make a date for 5th July and hear St. Bartholomew's organ played as you've never heard it played before!
