Jonathan Mann studied the organ at the Royal College of Music with John Birch and theory and composition with William Lloyd Webber. He directs the Launceston Choral Society and is Assistant Music Director of the Launceston Male Voice Choir. He has broadcast on both radio and television.

St Bartholomew's organ has a useful range of tonal colour. A varied programme will demonstrate the instrument's versatility for a wide range of styles, including music written by Bach or Handel, arrangements of classical orchestral music, light music, and novelty items popular in the 1920s and 30s.
